820-4-3-.02 Acceptance and Refusal of Records.

(1) Role of the filing officer. The duties and responsibilities of the filing officer with respect to the administration of the UCC are ministerial. In accepting for filing or refusing to file a UCC record pursuant to these rules, the filing officer does none of the following:

- (a) Determine the legal sufficiency or insufficiency of a document.
- (b) Determine that a security interest in collateral exists or does not exist.
- (c) Determine that information in the document is correct or incorrect, in whole or in part.
- (d) Create a presumption that information in the document is correct or incorrect, in whole or in part.

(2) Deadline for filing a continuation statement. The first day on which a continuation may be filed is the date corresponding to the date upon which the financing statement would lapse, six months preceding the month in which the financing statement would lapse. If there is no such corresponding date, the first day on which a continuation may be filed is the last day of the sixth month preceding the month in which the financing statement would lapse. The last day on which a continuation may be filed is the date upon which the financing statement lapses.

(3) Grounds for refusal of UCC record. In addition to the grounds listed in Section 7-9A-516 (b), Code, allowing the filing officer to refuse a UCC record, the filing officer shall refuse a UCC record if:

- (a) The record contains more than one secured party or assignee name or address and some names or addresses are missing or illegible;
- (b) The record appears fraudulent on its face;
- (c) The record identifies the debtor and secured party as the same person and, because there must be two parties to an underlying contract, does not name a debtor; or
- (d) In filings made with county probate judges' offices pursuant to Section 7-9A-501 (a)(1), Code, the filing either fails to state the amount of indebtedness in Block 8 of the UCC 1 form or lacks a sufficient filing fee due to failure to include the mortgage tax required in Section 40-22-2, Code.

(4) Procedure upon refusal. Except as provided in Rule 820-4-3-.01 (12), if the filing officer finds grounds to refuse a UCC record, the filing officer shall return the record to the remitter and shall refund the filing fee.

(6) Notification of Defects. Nothing in these rules prevents a filing officer from communicating to a filer or a remitter that the filing officer noticed apparent potential defects in a UCC record, whether or not it was filed or refused for filing. However, the filing office is under no obligation to do so and may not, in fact, have the resources to do so or to identify such defects. The responsibility for the legal effectiveness of filing rests with filers and remitters and the filing office bears no responsibility for such effectiveness.

(7) Refusal errors. If a secured party or a remitter demonstrates to the satisfaction of the filing officer that a UCC record that was refused for filing should not have been, the filing officer will file the UCC record as provided in these rules with a filing date and time assigned when such filing occurs. The filing officer will also file a notice of correction that states the effective date and time of filing which shall be the date and time the UCC record was originally tendered for filing.

820-4-3-.03 U.C.C. Information Management System.

(1) The filing office shall act on any UCC record filed with the filing office by adding information obtained from the UCC record to the information system. The filing office shall not act on any UCC record by deleting any information from the information system. An amendment shall have no effect upon the status of the financing statement or parties, except that a continuation may extend the period of effectiveness of a financing statement.

(2) The filing office may remove the UCC record and delete the names under which it was indexed one year after lapse.

(3) A financing statement filed against a transmitting utility shall lapse when terminated by the last secured party of record.

820-4-3-.06 Filing and Data Entry Procedures.

(1) Errors of the filing officer. The filing office may correct the errors of filing officer personnel in the UCC information management system at any time. If the correction occurs after the filing officer has issued a certification date, the filing officer shall file a notice of correction in the UCC information management system identifying the record to which it relates, the date of the correction, and explaining the nature of the corrective action taken. The record shall be preserved as long as the record of the initial financing statement is preserved in the UCC information management system.

(2) Data entry of names - designated fields. A filing should designate whether a name is a name of an individual or an organization. If the name is that of an individual, the first, middle and last names and any suffix shall be given.

(a) Organization names. Organization names are entered into the UCC information management system exactly as set forth in the UCC record, even if it appears that multiple names are set forth in the record or if it appears that the name of an individual has been included

in the field designated for an organization name.

(b) Individual names. On a form that designates separate fields for first, middle, and last names and any suffix, the filing officer enters the names into the first, middle, and last name and suffix fields in the UCC information management system exactly as set forth on the form.

(c) Designated fields encouraged. The filing office encourages the use of forms that designate separate fields for individual and organization names and separate fields for first, middle, and last names and any suffix. Such forms diminish the possibility of filing office error and help assure that filers' expectations are met. However, filers should be aware that the inclusion of names in an incorrect field or failures to transmit names accurately to the filing office may cause filings to be ineffective. All records submitted through direct data entry or through EDI will be required to use designated name fields.

(3) Notice of bankruptcy. The filing officer shall take no action upon receipt of a notification, formal or informal, of a bankruptcy proceeding involving a debtor named in the UCC information management system.

820-4-3-.07 Search Requests and Reports.

(1) General requirements. The filing officer maintains for public inspection a searchable index for all UCC records. The index shall provide for the retrieval of a record by the name of the debtor and by the file number of the initial financing statement and each filed UCC record relating to the initial financing statement.

(2) Search requests. Search requests shall contain the following information.

(a) Name searched. A search request should set forth the correct name of the debtor to be searched and must specify whether the debtor is an individual or an organization. A search request will be processed using the name in the exact form it is submitted.

(b) Requesting party. The name and address of the person to whom the search report is to be sent.

(c) Fee. The appropriate fee shall be enclosed, payable by a method described in Rule 820-4-3-.01 (11).

(d) Search request with filing. If a filer requests a search at the time a UCC record is filed, the name to be searched will be the debtor name as set forth on the form. The requesting party

shall be the remitter of the UCC record, and the search request shall be deemed to request a search that would retrieve all financing statements filed on or prior to the date the UCC record is filed.

(3) Rules applied to search requests. Search results are produced by the application of standardized search logic to the name presented to the filing officer. Human judgment does not play a role in determining the results of the search. The following rules apply to searches.

(a) There is no limit to the number of matches that may be returned in response to the search criteria.

(b) No distinction is made between upper and lower case letters.

(c) Punctuation marks and accents are disregarded.

(d) Words and abbreviations at the end of a name that indicate the existence or nature of an organization as set forth in the "Ending Noise Words" list as promulgated and adopted by the International Association of Corporation Administrators are disregarded.

(e) The word "the" at the beginning or end of the search criteria is disregarded.

(f) All spaces are disregarded.

(g) For first and middle names of individuals, initials are treated as the logical equivalent of all names that begin with such initials, and first name and no middle name or initial is equated with all middle names and initials. For example, a search request for "John A. Smith" would cause the search to retrieve all filings against all individual debtors with "John" or the initial "J" as the first name, "Smith" as the last name, and with the initial "A" or any name beginning with "A" in the middle name field. If the search request were for "John Smith" (first and last names with no designation in the middle name field), the search would retrieve all filings against individual debtors with "John" as the first name, "Smith" as the last name and with any name or initial or no name or initial in the middle name field.

(h) After using the preceding rules to modify the name to be searched the search will reveal only names of debtors that are contained in unexpired financing statements and exactly match the name requested, as modified.

(4) Optional information. A UCC search request may contain any of the following information.

(a) The request may limit the records requested by limiting them by the address of the debtor, the city of the debtor, or the date of filing (or a range of filing dates). A report created by the filing officer in response to such a request shall contain the statement "A limited search may not reveal all filings against the debtor searched and the searcher bears the risk of relying on such a search."

- (b) The request may ask for copies of UCC documents identified on the primary search response.
- (c) Instructions on the mode of delivery desired, if other than by ordinary mail, which request will be honored if the requested mode is available to the filing office.
- (4) Search responses. Reports created in response to a search request shall include the following.
 - (a) Filing officer. Identification of the filing officer and the certification of the filing officer required by law.
 - (b) Report date. The date the report was generated.
 - (c) Name searched. Identification of the name searched.
 - (d) Certification date. The certification date and time for which the search is effective.
 - (e) Identification of initial financing statements. Identification of each unlapsed initial financing statement filed on or prior to the certification date and time corresponding to the search criteria, by name of debtor, by identification number, and by file date and file time.
 - (f) History of financing statement. For each initial financing statement on the report, a listing of all related UCC records filed by the filing officer on or prior to the certification date.
 - (g) Copies. As distinguished in Comment 4 to Section 7-9A-523, Code, copies of all UCC records revealed by the search and requested by the searcher are available as an additional service available for the fee of \$1.00 per page identified in Section 36-14-3, Code.
- (5) Transition searches. During the transition period of January 1, 2002 through December 31, 2006, public access to a database that produces search results beyond exact name matches may be provided by the filing office. The supplemental database shall not be considered part of the standard search logic and shall not constitute an official search by the filing office.
